INTECSA INDUSTRIAL, S.A. DATA

Code Supplier nº .....

Request for Company survey from PROCUREMENT PURCHASING AND SUBCONTRACTS
[ ] Other

Name: .....

Department :.....

Telephone :.....

Survey : [ ] General [ ] Contract related

Reason : ..... UAN :.....

Audit : [ ] Company visit req. [ ] Company visit not req.

INSTRUCTIONS

1. Please, read all the questions made in this questionnaire, before answering them.

2. If you consider some questions interesting or profitable to evaluate this questionnaire, please you are allowed to modify or add them.

3. Please, attach all information and data you think are necessary.

APPR'D	CHK'D	ISSUE	DATE	DESCRIPTION OF ISSUE
CUP	RDDS	2	June 07	Change of registered name
FGC	EL/MP	1	30/04/95	Issueing

INDEX

1. Scope of questionnaire

2. General information

3. Organization

4. Quality Management

5. Staff
(Mainly design, Welding, Quality Assurance).

6. Manufacturing and infrastructure possibilities.

7. Activities, manufactured products or coatings / lining combinations.

8. Testing facilities

9. Name and Signature Company

10. Viewing of workshop

11. Reservations / Notes / Necessary alterations

12. Result of Supply Survey

1. SCOPE OF QUESTIONNAIRE

This questionnaire should be complimented in the required points by the Suppliers which desire being included in the **Homologated Supplier's General List** by INTECSA INDUSTRIAL, S.A.

2. GENERAL INFORMATION

2.1 Name of Company : Contact person : Name Department :

....
....
....

Location .....
Country.....
Code.....
Telephone.....
Fax.....

2.2 Documents and information used for the survey :

.....
.....
.....
.....

2.3 Important persons to contact :

POSITION	NAME	TELEPHONE
Board Management	.....	
Commercial Management	.....	
Technical Management	.....	
Procurement Management	.....	
Marketing Management	.....	
Design Management	.....	
Works Management	.....	
QA Management	.....	
Welding Engineer	.....	

2.4 Market Status

Manufacturer..... [ ]

Manufacturer and distributor..... [ ]

Only distributor..... [ ]

Representation and distribution exclusive ..... [ ]

Packer ..... [ ]

Commerce ..... [ ]

Others (to specify) ..... [ ]

2.5 The General / Commercial / Technical documentation delivered by the Supplier will be in English or Spanish language. If not, the documentation will be delivered with its corresponding translation into one of these languages. However, please confirm if your standard documentation is on line.

General / Commercial:	Spanish	[ ] Yes	[ ] No	Partial	[ ]	Total	[ ]
	English	[ ] Yes	[ ] No	Partial	[ ]	Total	[ ]
	French	[ ]Yes	[ ] No	Partial	[ ]	Total	[ ]
Technical:	Spanish	[ ] Yes	[ ] No	Partial	[ ]	Total	[ ]
	English	[ ] Yes	[ ] No	Partial	[ ]	Total	[ ]
	French	[ ] Yes	[ ] No	Partial	[ ]	Total	[ ]

2.6 Please describe briefly the actual manufacturing program. (Attach List of References).

.....
.....
.....
.....

2.7 Other interesting data

Date of Company was established : .....

Capital stock : .....

Estimated assets : .....

Timetable : .....

Bank references : .....

Scope of National annual sales during the last three years.

Year : ..... Sales :.....
Year :..... Sales :.....
Year :..... Sales :.....

Scope of Export Sales.

Year :..... Sales :.....
Year :..... Sales :.....
Year :..... Sales :.....

Are these working shifts established ? [ ] Yes [ ] No

Does your company take part from a group ? [ ] Yes [ ] No
Which one ?.....

Do you have agreements with other Companies ? [ ] Yes [ ] No
Which ones ?.....

Main shareholders

.....
.....
.....
.....

Are the Juridical Statute or Affiliation subject to possible modifications ?
(Sample : Mergering, change of shareholders, etc.) [ ] Yes [ ] No

Which ones?.....
.....

3. ORGANIZATION

3.1 Description of existing works Departments
(Structure and responsability, if applicable attach Organization Plan)

.....
.....
.....
.....

3.2 Subsidiaries (Location, size, fabrication programme)

Name : .....
Location : .....
Country : .....
Code : .....
Telephone : .....
Fax : .....
Others (to specify) : .....

3.3 Dependence on sub-suppliers and services companies

.....
.....
.....
.....

3.4 Is there an authorised Quality Assurance person directly responsible to the Board management or in a similar position in the organization independent of the production ?

[ ] Yes [ ] No

3.5 Has the authorised Quality Assurance person, duties expressly relevant to Quality assurance and the necessary authorisation to carry them out?

[ ] Yes [ ] No

4. QUALITY MANAGEMENT

4.1 Is there a Quality Assurance System in existance? [ ] Yes [ ] No
Is this acc. to DIN ISO 9000-9004 ? [ ] Yes [ ] No
If no, acc. to which standard ? .....
Already certified [ ] yes, when ..... [ ] No
By which organization ? .....

4.2 Is there an existing QA-Manual ? [ ] Yes [ ] No
Is this acc. to : DIN ISO 9000-9004 ? [ ] Yes [ ] No
DIN ISO 9001 ? [ ] Yes [ ] No
DIN ISO 9002 ? [ ] Yes [ ] No
DIN ISO 9003 ? [ ] Yes [ ] No

If no, accord, to which standard ?.....

4.3 Is the Quality Assurance System periodically and systematically checked for effectiveness ? [ ] Yes [ ] No

4.4 Which further measures are planned ?

.....
.....
.....
.....

4.5 Existing Approvals / Qualification (applicable codes)

Which :	Valid until :	Field of application Materials Dimensions
.....	.....	.....
.....	.....	.....
.....	.....	.....
.....	.....	.....

4.6 References of main clients which have done Quality Audit

.....
.....
.....
.....

4.7 Do you dispose of :

Technical Office ? [ ] Yes [ ] No

Laboratory ? [ ] Yes [ ] No

Please clarify .....
.....

4.8 <u>Another data</u>

Do you dispose of any Cost Control System? [ ] Yes [ ] No

How does is work ?.....
.....

Do you dispose of Process Statistics Control Systems in your productions lines?

[ ] Yes [ ] No

Please clarify.....
.....

Who is the responsible for checking the defective items ?

.....

What person decides at last on ?

.....

Do you dispose of Patents or Licences ? [ ] Yes [ ] No

If yes, which ones ? .....
.....

What kind of test indicated in drawings and supply norms cannot be carried by you out ?
.....
.....

What kind of Computer System do you have ?
.....

Does the Supplier manufacture	Casts ?	[ ]	Yes	[ ]	No
	Matrixes ?	[ ]	Yes	[ ]	No
	Tools ?	[ ]	Yes	[ ]	No
	Equipments ?	[ ]	Yes	[ ]	No

What persons build them ?

.....
.....

Which Inspection Companies do you work with ?

.....
.....

5. STAFF (Mainly Design, Welding, Quality Assurance)

5.1 Number and qualification

Total number of staff : .....

Indirect personnel and qualification

Superior degrees : .....

Medium degrees : .....

Designers and draftsmen : .....

Computers experts : .....

Administratives : .....

Master mechanic : .....

Responsibles : .....

Group Managers : .....

Welders : .....

Boilermaker : .....

Installer : .....

Others : .....

5.1.1 Design Eng. office [ ] Yes [ ] No
If no, by which company ?.....

Number of staff : .....

Experience of work carried out acc.

[ ] DIN [ ] AD/TRD [ ] ASME, Sect....., Div..... [ ] TEMA
[ ] BS [ ] OTHER :.....

Application of CAD [ ] Yes [ ] No System .....

Process engineering possible [ ] Yes [ ] No
For what ? .....

5.1.2 Technical Department

Total number of staff : .....

Are they cualified for preparing detailed drawings beginning with specifications and dimensioned drawings ? .....

Do you have or are you connected to any Electronic Calculation Station ?

[ ] Yes [ ] No

If yes, which one ?.....

Materials which you have manufacturing experience.

Material		Aprox. percentaje of total production
Carbon steel	:	.....
Low alloy steel	:	.....
High Cr alloy steel	:	.....
Austenitic stainless steel	:	.....
Plates	:	.....
Aluminium	:	.....
Copper	:	.....
Hastelloy	:	.....
Monel	:	.....
Others	:	.....

5.1.3 Production planing. Number of staff : .....

5.1.4 Works..... Consists Foremen.....
Boilermaker.....

Number of approved Welders	Welding process mark with cross					
	SMAW	SAW	GTAW	GMAW	OFW	OTHER

Approval of welders by following inspection authorities acc. to code :

.....

Welding supervisory staff : .....
consisting of Welding engineer : .....
Welding specialist : .....

5.1.5 Erection. Number of staff : .....

5.1.6 Quality Assurance..... consists of Inspectors .....
Material checking .....
Non destructive test Personnel.....

With qualification : Level I :..... Level II:..... Level III.....
for.....

5.2 Are there job descriptions ? [ ] Yes [ ] No
For which areas ? .....

5.3. Do you dispose of separate areas for working with Carbon Steel; Stainless Steel and Special Steel?

[ ] Yes [ ] No

6. MANUFACTURING AND INFRASTRUCTURE POSSIBILITIES

6.1. Machinery and facilities

6.1.1 Cutting facilities (mechanical, heat)

Type / process	Nº	Max. Cutting thickness (Mm)	
		Ferritic Steels	Austenitic Steels
Shear			
Saw			
Hot cutting			
Plasma cutting			
Other			
Remarks			

6.1.2 Rolling facilities

Rolls	Nº	Bending lth. (mm) max.	Bending rac. (mm) min.	Max. Wall thickness (mm) for material strength
Cold bending				
Hot bending				

Other bending facilities (e.g. pipe bending machines) :.....
.....

6.1.3 Presses

Presses	Nº	Press cap.	Max. wall thickness (mm) for material strength	
Cold pressing				
Hot pressing				

6.1.4 Mechanical tool machinery

Drilling machines

..... off horizontal ..... off vertical

.....transportable.....off, for deep drilling up to max. depth from ..... mm. dia from ..... to .....

Lathes

..... off ..... off vertical turning mill

Length between centres …. mm Dia max.....……. mm.
Centre height..... mm. Height clearance max..... mm.

Other machinery and / or specials machines : .....

Contracted out (if appl. company) :.....

6.1.5 Welding facilities

	Welding Machines of									
	Converter	Rectifier	Trafo	GTAW	GMAW	SAW	Mach carrier	OFM	Plasma	Laser
Qty										

Other apparatus (e.g. special mechanical / automatic welding machines) :

.....

Turnable positioner..... up to max. ..... ton, Roller supports..... up to max..... ton.

Drying and temperature holding equipment, for welding rods, flux and flux cored wire (e.g. oven, heated quiver, fixed, transportable).

Type	Nº	Max. Possible temperature (ºC)
.....	.....	.....
.....	.....	.....
.....	.....	.....
.....	.....	.....

Storage of weld filler materials : air conditioning rooms [ ] Yes [ ] No

Welding equipment for plastic materials [ ] Yes [ ] No

6.1.6 Facilities for preheating (P) / Heat treatment (H) / Special Ovens(S) / Autoclaves (A)

Process / Type	For max. workpiece size length / width / height (m)	Temp. ºC max. +/- Toler.	Temp .Control	
			Oven	Workpiece
Note				

Additional facilities (e.g. oil, or water baths, max. size) :

.....

Annealing facilities (resistance, inductive heating) :.....

Type nº :.....

Other (e.g. : local temp. oven) :.....

Contracted out : [ ] Yes [ ] No which company ?.....

6.1.7 Metal cleaning facilities

Blasting facility : [ ] Yes [ ] No Blasting material :.....

Pickling bath : [ ] Yes [ ] No Picklings area : [ ] Yes [ ] No

Bath size : length ……mm; width : …….. mm; depth : …… mm.

Pickling medium: Basis HNO3-HCl [ ] Yes [ ] No
Basis HNO3-HF [ ] Yes [ ] No

Spray pickling [ ] Yes [ ] No Pickling paste [ ] Yes [ ] No

Other :.....

Outside sub-contract :.....

6.1.8 Coating facilities [ ] Yes..... [ ] No

Outside sub-contract : .....

6.1.8 Machinery maintenance

Do you carried out a regular maintenance ? [ ] Yes [ ] No

Does a structural program exist for preventive maintenance ? [ ] Yes [ ] No

Does a structural program exist for conditional maintenance ? [ ] Yes [ ] No

What kind of values do you use for evaluate the capacity and results of your machinery ?

.....
.....

Please indicate control system and tools procurement year.

.....
.....

Do you dispose of Measuring and Testing Equipments Control System ?

[ ] Yes [ ] No

Have you foreseen investments for increasing your production ?

[ ] Yes [ ] No

Do you dispose of installations or high technology machinery ?
(Numerical control machines, laser, computerized systems)

[ ] Yes [ ] No

Clarify .....
.....

Is the actual organization capable to confront unpredictable situations ?

[ ] Yes [ ] No

Clarify .....
.....

6.2 Areas and cranes

Is the Company owner of Grounds ? [ ] Yes [ ] No
Buildings ? [ ] Yes [ ] No

	Total m^2	without crane m^2	with crane m^2	crane rail length x btw rails nº of cranes x lift capacity
Work shop area				
Production area				
Storage area				
Which ones covered				
TOTAL AREA				

Mobile crane :..... Nº / capacity:.....

Mobil wheelbarrow..... Nº / capacity:.....

6.3 Transport connection

	Max. ⊘ mm.	Max. load measure m. length x width x height	Max. weight tons	Possible restrictions
Road				
Rail				
Water way				

Do you dispose of your own transport agents ? [ ] Yes [ ] No

6.4. Special features (e.g. noise limits, working hour restrictions, outside erection area, etc.)
.....
.....
.....

6.5 Own packing [ ] Yes [ ] No Seaworthy packing [ ] Yes [ ] No
Outside packing [ ] Yes [ ] No

6.6 Site erection

Is erection possible ? [ ] Yes [ ] only for own fabrication
[ ] No [ ] also for outside supply

If yes, up to erection weight from max..... ton or with outside company (e.g. : for cranes) to max. .....ton.
..... Man erection personnel.

7. ACTIVITIES, MANUFACTURED PRODUCTS OR COATINGS / LININGS COMBINATIONS

7.1 Material

Material	Welded wall thickn. max.	Remarks	Coating/lining material	Coating/lining thickn. max.	Remarks

Max. joint efficiency :.....

Max. size that can be fabricated :
Length..... mm ; width..... mm.; height.....mm.
Weight max..... ton

7.1.2 Material supply (Inland / Import / Quality / Supply Type)

Semi-finished and finished products :

.....
.....
.....
.....
.....

Welding materials :

.....
.....
.....

The developing of new products are predicted by you ?

.....
.....
.....

7.1.3 Services :

.....
.....
.....

7.1.4 Marks :

.....
.....
.....

7.1.5 Agents :

.....
.....
.....

7.2. Description of activities

Activities	Does your Company carry out this activity for making the product or considered service?		Do you subcontract at least a part of this activity?		Which Company/ies is/are carried out this/these subcontracts?
	YES	NO	YES	NO	
Marketing	[ ]	[ ]	[ ]	[ ]	
Engineering and development	[ ]	[ ]	[ ]	[ ]	
Procurement	[ ]	[ ]	[ ]	[ ]	
Methods	[ ]	[ ]	[ ]	[ ]	
Production and assembly	[ ]	[ ]	[ ]	[ ]	
Thermic treatments	[ ]	[ ]	[ ]	[ ]	
Surface covering	[ ]	[ ]	[ ]	[ ]	
Sand blasting and painting	[ ]	[ ]	[ ]	[ ]	
Welding	[ ]	[ ]	[ ]	[ ]	
Maintenance	[ ]	[ ]	[ ]	[ ]	
Control of products and contracted services	[ ]	[ ]	[ ]	[ ]	
Control and production testing	[ ]	[ ]	[ ]	[ ]	
Control and final testing	[ ]	[ ]	[ ]	[ ]	
Expedition and delivery	[ ]	[ ]	[ ]	[ ]	
Transport	[ ]	[ ]	[ ]	[ ]	
Assembly and installation	[ ]	[ ]	[ ]	[ ]	
Start-up	[ ]	[ ]	[ ]	[ ]	
Post-sale / Technic Service	[ ]	[ ]	[ ]	[ ]	

7.3 Products

Is/are the product/s included in the brochures ? [ ] Yes [ ] No

Please explain briefly the kind of considered products.

.....
.....
.....

How many years the considered product is being manufactured ?

.....
.....
.....

Which are the stocks covering ? (in days)

.....
.....
.....

How many times do you need to have available the spare parts of the product ?

.....
.....
.....

How is considered the manufactured product in your Company ?

Unusual [ ] Special [ ] Normal [ ]

Standard [ ] Stocked [ ]

Is the risk of responsability of the manufactured products covered by any Insurance Company ?

[ ] Yes [ ] No

Please describe Insurance Company and the scope of risk

.....
.....
.....

Supplier's List : type and origin of main raw materials

.....
.....
.....
.....

Are your Suppliers previously informed about discontinuing any kind of production?

[ ] Yes [ ] No

What are the actions to be carried out by you when there is any impredictable delay at the delivery time ?
(Production incidences, Suppliers or Transport strikes, etc.)

.....
.....
.....

Are general instructions given when the materials are delivered ?
(assembly, maintenance, etc.)

[ ] Yes [ ] No

Are the instructions always written in the language country where the product / material is delivered?

[ ] Yes [ ] No

What guarantees can you offer if the material after being delivered results to be defective ?

Please specify.....
.....

Who is the responsible person to receive the claims from Clients ?

.....
.....

The post-sale technic service is :

Property [ ]

Subcontracted [ ]

No supply [ ]

No proceed [ ]

Do you dispose of prices revisions formulas for usual supplies? Which ones?
How are these formulas based ?

.....
.....

8. TESTING FACILITIES

8.1 Own material testing ? [ ] Yes [ ] No Approved [ ] Yes [ ] No
Use of outside laboratory [ ] Yes [ ] No

Name / Address :.....

Chemical testing laboratory [ ] Yes [ ] No Analyser equipment transportable? ..[ ] Yes [ ] No

Analysis process (qualitative / quantitative) :.....

Transportable hardness testing machine [ ] Yes [ ] No

Testing principle :.....

Manufacturer :.....

Equipment for testing plastic materials [ ] Yes [ ] No

8.2 Test facilities for Non Destructive Test.

Radiographic examination

..... off x-ray equipment to max. ..... Kv rating
..... off gamma-ray (Ir 192, Co 60, other)

Film viewing equipment [ ] Yes [ ] No

Ultrasonic equipment..... off, Type :.....
Us-Thickn.measurement equip..... off, Type :.....
Layer thickness measurem.equip..... off, Type :.....

Surface crack testing [ ] PT
[ ] MT [ ] Magnetised [ ] Flow
[ ] Combined process

Spark test up to ..... kv.
Pumps for water press. test up to..... bar test press
Test bed for valve testing [ ] Yes, max. nom. dia. …… [ ] No

Other Test instruments for NDT and / or special equipment :

.....

8.3 Test facilities for pumps, compressors and turbines manufacturing.

8.3.1 Testing of pumps

Testing equipment for measurement of :

Capacity (Q)	[ ] Yes	[ ] No
Head (H)	[ ] Yes	[ ] No
Power rating (N)	[ ] Yes	[ ] No
Vacuum test bed for NPSH-test	[ ] Yes	[ ] No

Drive power :.....

RPM [ ] 150 / 3000
[ ] 180 / 3600

8.3.2 Testing of compressors and turbines

Centrifugal equipment for impellor overspeed testing	[ ] Yes	[ ] No
Vacuum-balancing machine for high speed balancing	[ ] Yes	[ ] No
Test bed for turbo-compressor	[ ] Yes	[ ] No

Available.....

Test bed for steam turbine	[ ] Yes	[ ] No

Available steam boiler capacity for median test run :

Test bed for full-load trial of gas turbine	[ ] Yes	[ ] No
Vibration analyser	[ ] Yes	[ ] No
Gas analyser	[ ] Yes	[ ] No
Adequate instrumentation	[ ] Yes	[ ] No

8.4 Electric Equipments testing facilities.

Vacuum testing equipments	[ ] Yes	[ ] No
Charge testing equipments	[ ] Yes	[ ] No
Shock wave equipments	[ ] Yes	[ ] No
Discharge and ray type equipments	[ ] Yes	[ ] No
Noise control equipments	[ ] Yes	[ ] No
Dielectric testing equipments	[ ] Yes	[ ] No
Do you dispose of insulation dryed containers ?	[ ] Yes	[ ] No

9. NAME AND SIGNATURE'S COMPANY

Above data confirmed for Co. .....

Name..... Position.....

Signature..... Date.....

FOLLOWING INTECSA INDUSTRIAL INTERNAL DATA

10. VIEWING OF WORKSHOP (Remarks / special features / measures required to be taken)

.....
.....
.....
.....

11. RESERVATIONS / NOTES / NECESSARY ALTERATIONS :

.....
.....
.....
.....

12. RESULT OF SUPPLY SURVEY

[ ] Suitable for .....
[ ] Conditionally suitable for .....
[ ] Not suitable for.....

[ ] Repeat survey necessary Date: .....
Reason: .....

This questionnaire consists on …… pages …… Annex's

Survet carried out by :

Name Department Signature
